

KITCHEN REMODELING
RESIDENCE, SHADYSIDE
PITTSBURGH, PENNSYLVANIA

PROJECT Client wanted a few custom tiles to be set into an installation of commercial field tile. Client searched available tile resources and did not find a style that suited the application.

SOLUTION Magnificent Manufacturing took its cue from the client's love of gardening and created low relief sculpted tile representing favorite produce from the kitchen garden. Five designs were executed and hand painted. The result was a kitchen with the hand decorated touch and personal story that the owner desired.
